Chapter 1 : My TV

HyperMedia Center is an all-in-one entertainment solution for the modern life. Now you can watch and record your favorite TV programs anytime you like. When you run HyperMedia Center for the first time, the setup wizard will guide you to configure the TV settings.
1.1 Setting Up Your PCTV

Before you execute HyperMedia Center for the first time (using the icon on your desktop), please connect your KWorld device to your computer.

1. When executing HyperMedia Center for the first time, please select Analog or Digital TV according to your device and click-on “Next” to continue.

2. Please select your current location and click-on “Next” to continue.

3. Please click-on “Scan” to start channel scanning.
4. When channel scanning is completed, your display window would show “Found XX Channels”. Please click-on “Next” to continue.

5. Your PCTV is now setup completely, please click-on Finish to exit the setup mode.
